

PRECISO-CL SERIES

The CL80A and CL100A are our table top most powerful and versatile high speed precision cutters

The automatic cutter with best in touch panel. This cutter enables simple, quick and easy positioning of samples for cutting and sectioning. It allows to cut in 2 directions, large cutting capacity and programmable cutting function. Use either abrasive cut off blade or diamond wafering blade on variable rotational speed.

MODEL NO.	80A	100A
Motor Power	3Kw	4.5Kw
Max. Round Sample	Max.Ø80mm	Max.Ø100mm
Cut-Off Blade	Max.Ø305xØ31.75	Max.Ø355xØ31.75
Machine Size (WxDxH)	1000x1250x1200mm	
Weight	500kg	
Feeding Method	Auto	
Effective Rotational Speed	50~3000rpm	
Horizontal Movement	260mm	260mm
Vertical Movement	150mm	150mm
Power Supply	AC220V-3Ø
