PRECISO-CL SERIES

Smart CL series 60A comes with touch screen and joystick control for cuts always perfect

The CL series designed for laboratory that allows the metallographer to section any kind of material with virtually no deformation. The CL60A is a high speed precision cutter, able to use both diamond and abrasive blades and it allows to but X & Z axis to give perfect cuts always.

MODEL NO.	60A
Motor Power	2Kw
Max. Round Sample	Max.Ø60mm
Cut-Off Blade	Max.Ø255xØ31.75
Machine Size (WxDxH)	900x900x900mm
Weight	258kg
Feeding Method	Auto
Effective Rotational Speed	100~3000rpm
Horizontal Movement	200mm
Vertical Movement	80mm
Power Supply	AC220V-3Ø
